Public Support for the Countryside

- "We should preserve quality countryside for everyone, now and in the future. People need somewhere natural they can have peace and fresh air and shouldn't have to drive an hour to find it".

Green Belt progress and NEF Consulting's Report; Value of countryside is £26 million per year or Half a Billion over two generations

- Up to **£452 million** in health and wellbeing benefits
- **£192 million** from ecosystem services
- **£35 million** in economic benefits from tourism and recreation
- Petition up to **15,458 signatures**

South Hampshire Green Belt

- The value is as much as **£26 million a year** in terms of health, wellbeing, economic and ecosystem benefits
- Over two generations, the combined Net Present Value could produce well in excess of **£0.5 billion** in health, wellbeing, economic and ecosystem benefits
- Around **20,000 hectares** or **49,500 acres**

Protect South Hampshire's countryside

CPRE Hampshire started this petition to Cllr Keith House (Leader of Eastleigh Borough Council) and 3 others

It's a little-known fact that a vast amount of the South Hampshire countryside is completely unprotected. As the Solent towns and cities rapidly grow outwards, our most valued green spaces could soon be gone forever.

15,458 have signed. Let's get to 25,000!

- Ann Mohrmann signed this petition
- Ivan Nalsbitt signed this petition

Thanks to your support this petition has a chance at winning! We only need 9,542 more signatures to reach the next goal - can you help?

Take the next step!
